Sub: Letter of Appreciation for Deployment of the Mysore Dasara Mobile and web apps

@@@

The District Administration wants to place on record an appreciation to M/s WhiteSun Technologies India Private Limited for the successful deployment of the Mysore Dasara Android app and multi-platform Mobile web apps.

The mobile apps were well received by both the tourists and Mysore public in general. This is reflected in the positive comments and appreciation in the Google Play app store, with the users giving the app a five star rating.

We would like to highlight that the app was developed and deployed by WhiteSun Technologies India Private Limited in only a week's time, covering critical information about Mysore Dasara, Events (date wise and location wise), Tourist spots with photos, Map directions and videos etc.

The app was regularly kept up-to-date with the events, locations and dates, providing updates to users through Google store or website.

The infrastructure also supported submission of Real-time photos of events so that any person who is unable to attend Dasara can experience the events from any location.

The prompt delivery and technical support we received from WhiteSun Technologies is commendable and was critical in ensuring the smooth deployment of the Mysore Dasara apps on Mobile Platform.

Thanking you,

Yours truly,

Deputy Commissioner
Mysore District
